

For complete installation instructions, please see the owner's manual. This guide is intended to be a quick reference when replacing a StarClear Plus filter with a new SwimClear. The representative pad arrangement shown may vary from a specific installation.

For additional assistance, please contact Hayward Technical Service at (908) 355-7995.

Existing StarClear Plus filter to be replaced.

Step 1: Cut plumbing and remove StarClear Plus filter.

Step 2: Plumb new filter outlet union & remove pump outlet plumbing. **Note: SwimClear outlet is same height as StarClear Plus.**

Step 3: Connect SwimClear to outlet union.

Step 4: Plumb pump outlet to filter inlet (45 degree plumbing recommended for hydraulic efficiency).
