

TigerShark® Targeted Cleaning with a PLUS

Renowned for many years for its solidity and efficiency, TigerShark® Plus Robotic Pool Cleaners clean the bottom, walls and waterline. The unit includes a hand held wireless remote control that can be used to steer the cleaner for spot cleaning.

The safe 24V motor uses less energy and provides the most efficient vacuum strength as it moves over the pool, steps and walls with less effort. Clean-up is easy with the patented filter cartridge system.

The Hayward TigerShark® Plus for pools up to 20'x40'.

Liquid Feed System With Easy-Fill Design

Hayward introduced an innovative Liquid Feed System that offers a reliable and durable solution for automatic acid and liquid chlorine dispensing.

This system consists of a 15 gallon (56.7L) capacity UV resistant tank and low-power fixed output dosing pump. The tank cap is color coded and the tank is labeled as acid or chlorine for added safety.

Hayward makes liquid refill easier than ever employing an upright, convenient design with built-in handles and a spill containment barrier.

Contact Hayward/IMG Customer Service for more information.

Information at Your Fingertips

Hayward has several video tutorials available for product information, function and servicing of Hayward Pool Products.

If you have a company website you are welcome to embed the videos of your choice on your website.

Low Voltage Transformer Now Available for 120 Volt Installations

Recently added to the ProHayward Low Voltage Transformer line-up is a Hayward 120V version with multi-tap choices for proper low voltage electrical supply to underwater lights and even outdoor low-voltage lighting.

The 120V transformer is fitted with a convenient on/off power switch as well as an electrical cord for installation ease.

The transformer compliments the popular ProHayward line of 220V transformers which have become the transformer of choice of pool professionals around the world.

Contact Hayward/IMG Customer Service staff for further details on the newly introduced Hayward low voltage transformer.

Value Alternative for Quality Continuous Use Air Blowers

AIRTECH commercial blowers are ideally suited for spas, clubs or luxury villas which put a high demand on spa or pool aeration.

AIRTECH commercial blowers provide continuous operation that is impossible for a mushroom style blower. Built with rugged die cast aluminum construction and an outboard bearing, AIRTECH blowers run quieter and cooler than competing rotary blowers.

What's more, these blowers are value priced against other rotary blowers without compromising performance or reliability.

For public spa, pool and luxury pool applications, let AIRTECH blowers be your first choice in commercial blowers.

New Design SwimClear Single Element Cartridge Filter

Hayward revealed a new design SwimClear single element cartridge filter with industry leading hydraulic efficiency.

The new cartridge filter features an Easy-Lok™ ring design for quick access to the internal components. The pressure gauge and air relief valve are recessed for protection when servicing the filter.

The lower body height design allows the elements to be easily removed. Integrated handles make handling the filter easier than ever.

This new filter product became available for shipments in December. Please contact the Hayward/IMG Customer Service Department for further information.

For more information on the products featured in Newsplash, please contact Hayward/IMG at fax: 909.444.0327, email: img@hayward.com or go to www.Haywardpool.com
