Hayward CAT 6000 – The most advanced water chemistry controller

The CAT 6000 uses innovative solid-state sensing technology for its low-

The Hayward CAT 6000 features an intuitive interface, innovative solid-state free chlorine sensor and the most precise sanitizer control available.

CAT 6000 guides you through programming. Innovative sensing technology utilizes a unique feature named “Dynamic Sanitizer Control”, allowing for more precise sanitization control than ever before.

maintenance true free chlorine, temperature, and conductivity sensors.

NSF/ANSI Standard 50 Certified.

MaxFlo VS™ Variable-Speed Pump - The most energy efficient pump of its kind

MaxFlo VS pumps can save up to 80% on energy costs, paying for themselves faster than larger, more expensive models.

Compatible with the entire MaxFlo™ line for seamless retrofitting, the MaxFlo VS includes 8 customizable speed and timer functions as well as a 24-hour programmable clock to monitor power consumption and maximize energy savings.

Intuitive control pad can be rotated in four directions on the pump or removed and wall mounted.

An easy, drop-in upgrade that can operate in standalone mode or connect to any automation system, either directly or with relays.

- Versatile control options including 4-20 mA programmable inputs, flow and level sensing inputs, programmable auxiliary dry-contact outputs, programmable powered output and dedicated pH and sanitizer outputs.
- Built-in Wi-Fi connectivity provides remote system access from anywhere via Poolcomm
- Bluetooth capability** allows the system to communicate wirelessly with remote sensing peripherals
- Mini-Removable USB drive for access to water chemistry history and alarm data

SwimPro by Hayward

The secret to crystal clear water

The value priced SwimPro by Hayward high rate sand filter range is manufactured in the United States of rugged, durable, color-fast molded polymeric material to assure long life.

The filter features a high efficiency top diffuser and an innovative under-drain to assure balanced flow and maximized backwash performance.

Unique underdrain

The included 7 position multiport valve aids in quick and easy cleaning.

The SwimPro filter is virtually maintenance free and value priced thanks to advanced US manufacturing efficiencies.

Hayward Spa Blower – Turbo Charge your Spa Experience

Spa Blower with Check Valve

The new Hayward Spa Blower delivers quiet performance and powerful, soothing bubbles that instantly enhance any spa experience.

A unique motor with replaceable parts extends product life, while a 1-year warranty offers added peace of mind. Available in multiple voltages and horsepower ratings

The full spring check valve prevents water from reaching the motor and a unique rubber motor base provides extremely quiet operation.

SP1450 Turbo Jet

With simple installation and maintenance, our Spa Blower will provide maximum relaxation every season along with the signature Hayward Jet Air fittings, Turbo Jet and heating solutions for a Totally Hayward Spa Experience.

SP11434 Variflo Jet Air

ProHayward Stainless Steel Ladders

ProHayward ladders are the perfect choice for builders that want to offer a "Totally Hayward" package to their pool customers.

ProHayward Standard Ladder

ProHayward Combo Ladder

ProHayward ladders are AISI 304 stainless steel in easy-to-grip 43mm diameter tube size and are polished to a mirror-like finish.

The non-slip treads feature Hayward's exclusive "H" logo. For extra security, the anti-slip pads on each tread are mechanically fixed to the stainless steel tread.

The ladder comes in three styles and each ladder is individually boxed.
