

Happy Retirement, Bob!

September 2019

Robert De Martini will retire from Hayward IMG in September 2019.

With Oscar Davis and Robert Davis

For over 20 years, Robert De Martini has been the driving force behind IMG and a great ambassador for Hayward! As general manager of IMG, Bob grew the business 5

Presenting the annual Advantage Program

fold since 1996 and made Hayward the leading brand in many markets.

Always delighting our customers

Bob is well loved and respected within Hayward and by all the IMG customers. His vision and leadership have made IMG one of the most respected divisions of Hayward.

Presenting a customer a lucky draw prize

With long-time customers Mentoring the next generation

to spend his retirement enjoying quality time with his family in the San Francisco Bay area.

Having travelled the world meeting customers, Bob plans

Introducing a new product

Always red-y for action with the IMG team in Pomona

Hayward TigerShark® Robotic Cleaner

Renowned for many years for its solidity and efficiency, the Hayward TigerShark® cleans the bottom, walls and waterline.

With its ASCL microprocessor (Adaptive Seek Control Logic), it calculates the shape and size of your pool to clean every spot efficiently.

The Hayward TigerShark® is fully automatic, with no need for an exterior bag or pipe.

As soon as the program is finished it automatically shuts down. Available in the Quick Clean (QC) version for full cleaning in under 2 hours and with optional foam-brush for pools with tile finish.

An optional caddy cart makes handling easier.

PROHAYWARD 3680

Sealed LED Panel Underwater Light

The ProHayward 3680 LED nicheless light is manufactured of rugged ABS with UV protection. The outer frame has an embossed Hayward logo.

The ProHayward 3680 Sealed LED Panel Light is available in RGB color and WHITE combo.

Both models feature reliable SMD LED technology to offer long life and energy savings.

With the RGB model you get 7 fixed colors choices or 8 color

changing shows. With the WHT model you have the option of cool bright light or warm white.

The LED panel is resin enclosed and completely sealed from the water.

TECH NOTE:

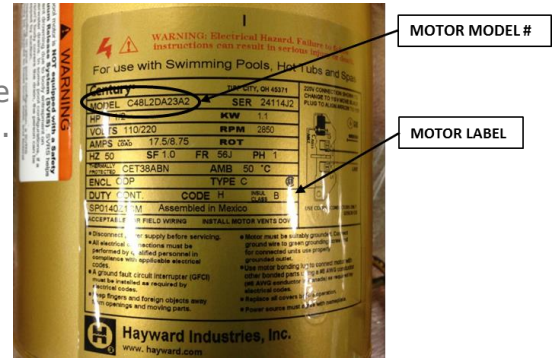

IDENTIFYING PUMP AND FILTER SERIAL NUMBERS

Hayward pumps and filters share a similar format for serial numbers which indicate the production factory and the month and year of production.

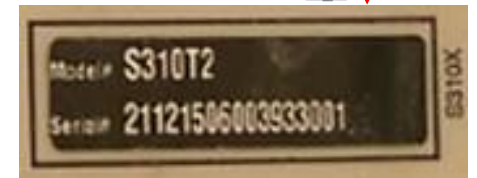

In the case of pumps, customers wrongly provide the serial number from the pump motor label which is related to the motor details.

The serial number for pumps is on the black and silver/white label affixed to the wet end part of the pump. The same product ID information is also located on the printed label on the outside of the packaging.

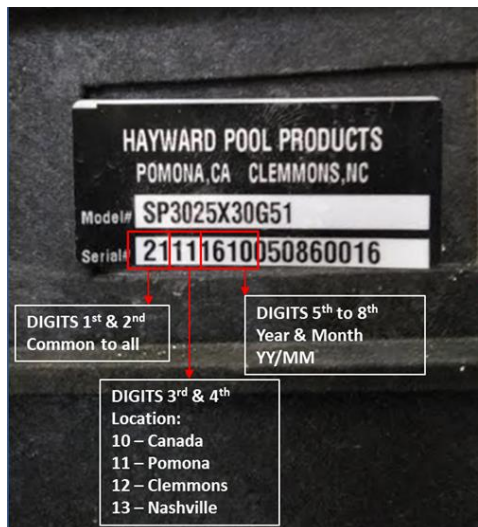

Providing the right serial number is important in expediting warranty claims and tracking manufacturing issues.

FILTER SERIAL #:
Filter manufactured 2015 (15) June (06)

PUMP SERIAL #:
Pump manufactured 2016 (16) October(10)
