

## DEP500 Filter – Maintenance of a cartridge filter, Clarity of D.E. technology

**DEP 500 Series** pleated element D.E. filters are Hayward's first pool filters engineered with cartridge convenience and D.E. technology.

DEP500 with  
SelectaFlo™ Valve

These pool filters provide superior water clarity and make maintenance simpler and faster than ever. Trusted D.E. filtration offers greater dirt-trapping capabilities, while the reduced number of pleats significantly decreases cleaning time.

Lower pleat count allows for reduced cleaning time and new D.E. technology ensures excellent water clarity.

Heavy-duty, tamper-proof, one-piece clamp provides quick

New pleated  
D.E. elements

access to internal components without disturbing plumbing connections

Flow rating is equivalent to grid D.E. and multiple element cartridge filters, making retrofit installation simple. The DEP500 is about 6" shorter in height than the Pro-Grid filter.

Filter can be installed with or without a valve. Then new SelectaFlo™ Valve has a 90% lower head loss than existing multiport valves

SelectaFlo™ High-Efficiency D.E. Filter Valve

# TurboCell® S3 Clear Cell

The new **Hayward TurboCell® S3 Clear Cells** are compatible with all AquaRite® 900 or AquaRite S3 Salt Chlorination Systems and Omni® automation systems.

With the new design the cells have reduced scaling and head loss that help with saving water and energy. The transparent design makes inspection easier.

The S3 Clear Cells are part of the Expert Line® and are only available through your local pool professional.

An authentication feature prevents the use of knock off cells. This ensure proper functioning of your AquaRite system and protects dealer/distributor revenue.

SP0714T Valve

## SwimPro® by Hayward - The simple secret to crystal clear water

The value priced **SwimPro®** by Hayward high rate sand ball filter range is manufactured in the United States of rugged, durable, color-fast molded polymeric material to assure long life.

The filter features a high efficiency top diffuser and an innovative under-drain to assure balanced flow and maximized backwash performance.

Unique underdrain

The filter includes the standard Hayward **SP0714T** 7 position VariFlo™ that aids in quick and easy cleaning.

The SwimPro filter is virtually maintenance free and value priced thanks to advanced US manufacturing efficiencies.
