Tristar® XL

- Industry's Highest in Class WEF

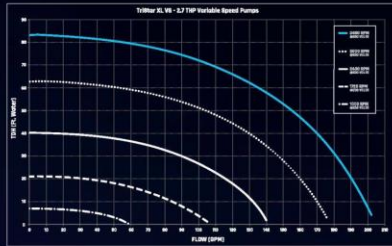

Certified to NSF/ANSI Standard 50.

Illuminated LED Sheers

- Inspires BETTER.

FLEXES BETTER.

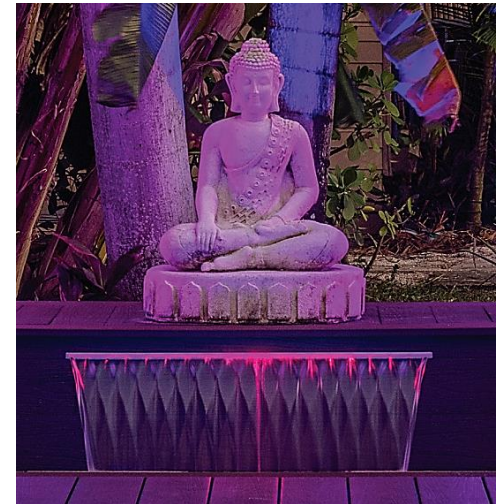

POWERFUL DESIGN.
VERSATILE PERFORMANCE.

TRISTAR® XL
HIGH PERFORMANCE PUMP

Scan the code to learn more.

Illuminated LED Sheers from **Hayward®** help transform any pool into a sophisticated aquatic escape with mesmerizing water effects in a variety of colors, shapes and designs made to complement any aesthetic.

Sheer with Light insert

The industry-first top-access light eliminates light loss, regardless of length and is available in

lengths from 1' to 8' for straight, curved or custom wall surfaces.

The addition of OmniDirect Mode™ automation provides instant navigation to desired colors or light shows and dimming capabilities.

Enhance any pool's ambience with soothing sights and sounds. Use the sheers with Hayward variable speed pumps for greater versatility.

The **TriStar® XL** is ideal for large residential feature-rich, semi-commercial pools and water features.

Engineered for performance and versatility, it delivers increased flow from extra-large 3" unions. The pump has a totally enclosed fan-cooled (TEFC) motor for maximum efficiency and a chemical-Resistant Viton® Seal for long-term durability.

The **TriStar® XL** has a **WEF** of upto 9.9. The removable strainer housing

Hi-Capacity Removable Strainer

allows for more adaptable pump configurations, and the oversized strainer basket Reduces cleaning

and maintenance.

Like other Hayward variable speed pumps, the **TriStar® XL** has a digital interface that makes pump control easy, and offers options for rotating or wall-mounting to fit your space.

Rotatable Control

Remote control the **TriStar® XL** with Omni® automation to manage speed, scheduling and more.

Visit Hayward at the **PISCINE GLOBAL EUROPE** exhibition which brings together international professionals from the pool and wellness sector to help build a network of high-caliber contacts among manufacturers, builders, installers and architects. 15-18 November 2022, Lyon, France

PROHAYWARD Transformers

ProHayward low voltage swimming pool transformers are the best complement to Hayward pool lighting options and can be used in water feature applications. The CE listed 230V TRS/TRM transformers are designed to provide a safe 12 volt electric supply to the underwater pool lights.

The UL listed advanced circuit protection resets automatically.

The weatherproof housing features separate wiring compartments for the fully encapsulated high and low voltage circuits.

The 120V LTBCY11300 includes a waterproof on/off switch eliminating the need for installation of a separate switch.

WHEN IT COMES TO EFFICIENCY, THIS HEATER DOESN'T CUT CORNERS!

100,000 BTU PERFORMANCE WITH 6.4 COP

HeatPro® HP31005T Heat & Cool Heat Pump

- ✓ Heat and cool capability
- ✓ Multi-speed fan automatically modulates speed for quiet, energy-efficient operation
- ✓ Compact footprint requires only 6" rear clearance
- ✓ Durable components like titanium heat exchanger and Gold Fin evaporator coil extend lifespan
- ✓ 2"/2.5" Standard plumbing unions

AHRI CERTIFIED AHRI certified and independently lab-tested to ensure the highest quality performance and value.
