

LED WATERBOWLS

Stunning Architectural Focal Point

WATERBOWL FINISH OPTIONS:

Transform your pool space with Hayward® LED **WaterBowls**. Available with square or round base shapes and sculpted from durable, UV-resistant material in 7 finishes: Tempered Glass, Brass, Bronze, Copper, Gray, Natural, Pewter.

WaterBowls are the perfect way to add a personal touch and sophistication.

OmniDirect™

Add-on dramatic LED lighting integrates seamlessly with Omni® automation and transitions effortlessly from day to night. **OmniDirect™** Mode compatible for additional lighting shows and colors like the one shown, dimming control and more.

LBCUSXXX WaterBowl LED Light

SwimClear™

Multi Element Cartridge Filter

SwimClear™ multi-element cartridge filters provide heavy-duty dirt-holding capacity and extra-long filter cycles. SwimClear filters offer a choice of multiple capacities along with **industry's largest filter**, the C7030 model which has a whopping 700 sq.ft

SwimClear filter's top manifold configuration boasts industry-leading hydraulic performance, facilitating maximum flow through all cartridge elements for superior water clarity and increase energy savings. The reinforced co-polymer tank is durable enough

to withstand tough environmental conditions and the heavy-duty, tamper-proof, one-piece clamp provides quick access to internal components without disturbing plumbing connections.

Save up to 2,500 gallons of water per year with the cleanable cartridge elements that eliminate the requirement for backwashing.

UltraUV2™

ULTRAVIOLET WATER SANITIZER

-Safe and Eco-Friendly

The **UltraUV2™** is easy to install in new and existing pools with multi-directional piping connections.

Water circulates through the chamber and the UV-C lamp immediately inactivates 99.9% of micro-organisms such as crypto, giardia and algae which are

resistant to chlorine. This provides a cleaner, clearer swimming environment with zero harmful by-products.

The total amount of chlorine needed to maintain an adequate level of residual sanitizer reduces dramatically (a minimum residual level of chlorine should be maintained at all times).

100% corrosion resistant housing with 360° direct view lamp indicating ring lets you know the unit is on.

2-year limited warranty.

AQL-CHEM4™

LIQUID CHEMICAL DISPENSING

-Safe and Eco-Friendly

Hayward's **AQL-CHEM4** Liquid Dispensing Systems offer reliable and durable solutions for automatic liquid dispensing in many applications including dosing of acid or chlorine in swimming pools.

The energy efficient system consists of a high capacity 15-gallon Hayward branded tank made of UV resistant plastics, and the AC035 low-power fixed output pump that works with 110V-220V 50/60Hz.

AC035 Feed Pump

AQL-CHEM4-ACID

Refill is made easier than ever, employing an upright, ergonomic design and convenient built-in handles.

Can be managed with any on-off controller or control

system.

The AQL-CHEM4 can be used with Hayward's AquaRite S3, OmniLogic, OmniHub or Commercial CAT Controllers.

Color2x TesTabs PRO 7 Pool & Spa Photometer

The **PRO7 Pool & Spa Photometer** from LaMotte® directly measures six main pool & spa parameters using stable tablet reagents.

Instrument grade TesTabs® tablets packaged in blister-style foil eliminates the need to manually tear open a foil packet and carefully dispense the tablet.

The waterproof, Bluetooth® handheld pool and spa professional user-friendly photometer, testing reagents and photo-diagrammatic instructions are packaged in a convenient carrying case.

The PRO7 Pool & Spa Photometer Measures free chlorine, total chlorine, pH, total alkalinity, calcium hardness and cyanuric acid.
