

Illuminated LED Sheers

- For BETTER Inspiration

Illuminated LED Sheers from **Hayward®** help transform any pool into a sophisticated aquatic escape with mesmerizing water effects in a variety of colors, shapes and designs made to complement any aesthetic.

Sheer with Light insert

The industry-first top-access light eliminates light loss, regardless of length and is available in lengths from 1' to 8' for straight, curved or custom wall surfaces.

The addition of **OmniDirect Mode™** automation provides instant navigation to desired colors or light shows and dimming capabilities.

Enhance any pool's ambience with soothing sights and sounds. Use the sheers with **Hayward Variable Speed Pumps** for greater versatility.

HAYWARD® HCC2000 Automated PH/ORP Controller For BETTER Sanitization Control

A powerful yet affordable microprocessor-based pH/ORP controller, the **Hayward HCC 2000** has a simple-to-operate user interface with easy-to-read LED display and is easy to calibrate. It also features proportional feed to ensure precise water chemistry.

The **HCC 2000** controller comes complete with flow cell, flow sensor and high-quality pH and ORP probes.

The **HCC2000-CP** is a complete package that comes with pre-mounted **AC035** peristaltic feed pumps for pH and chlorine adjustment.

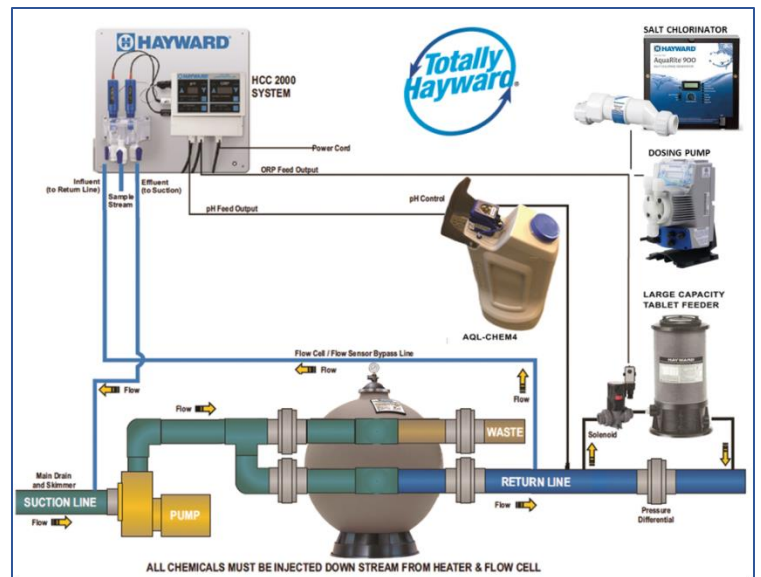

AC035 peristaltic Feed Pump

The **HCC2000** is compatible with any chemical feed systems: chlorine, electronic chlorine (salt)

generators, acid and CO₂; and can be used with any brand of high-capacity dosing pumps including the **Hayward Z-Series** dosing pumps.

Z-Series Feed Pump

CHEMICAL FEED OPTIONS WITH THE HCC2000 CONTROLLER IN A TOTALLY HAYWARD SYSTEM

Hayward Tablet Feeders

Hayward automatic chemical feeders are ideal during new pool construction or aftermarket installations.

Models are available for in-line and off-line configurations to accommodate most capacity, plumbing and space considerations. Use with trichlore granular chlorine only. All units incorporate a durable ABS body along with a high-quality Viton® seal and an ergonomically designed cover to allow for simple removal. Larger units can be used for commercial pools.

PROHAYWARD Blü Media

– BETTER FILTRATION

Replace the sand in the filter with **PROHAYWARD Blü Hi-Performance**

Filter Media for DE-like filtration quality.

ProSeries™ Filter with ProHayward Blü

Just one pound of PROHAYWARD Blü will do the job of 100 lbs of sand!

PROHAYWARD Blü lasts longer than

sand and will not degrade with flowing water. PROHAYWARD Blü media provides very little

resistance to water flow. For variable speed pumps, you can decrease your pump speed and still maintain the same circulation flow rate.

PROHAYWARD Blü is sold in 1lb bags and is available in a master carton of 12 bags.

Contact Hayward IMG to order a sample of PROHAYWARD Blü.

Amerrec AK

Steam Generators

– First Class Performance

To add steam to the shower simply requires an enclosed shower and the addition of a steam generator and control. Luxury is added without using any extra space.

The **Amerrec AK** steam generator uses full power to quickly heat up the steam room to its preset temperature, then cuts power to half its elements. The result is a more consistent flow of soft steam and more stable temperature.

The new Comfort Flo Steam Head gives an improved dispersion pattern that provides even heat

ComfortFlo Steamhead

throughout the steam room. The steam head's internal Ryton plastic insulator prevents the exterior metal surface from reaching high temperature.

Amerrec steam generators can be consolidated with your Hayward shipment for cost savings.
