

## SharkVacXL™ Robotic Cleaner

- Razor-sharp clean

Simple, fast and tremendously effective, the Hayward® **SharkVac XL™** covers the entire pool including the walls and water line. The three settings allow adjustment to all pool configurations.

Maintenance is quite simple: easily replaced rollers and access to the filtration panels through the top. Requires no hoses or hookups nor additional pumps and runs separately from the pool's filtration system reducing filter backwashing and water usage.

The out-of-water sensor protects the motor by preventing cleaners from running out of the water and the beach-entry sensor reverses direction when pool cleaner starts climbing out of the water.

# HIDRONISER

## Copper/Silver Ionization System

BY **sugar.valley**

ECO-FRIENDLY WATERCARE TECHNOLOGY

A HAYWARD COMPANY

The control panel can sense and regulate pH, Redox (ORP) and free chlorine controls, filtration, lighting, temperature and up to 4 auxiliary outlets.

Ions produced from copper and silver attract microscopic organisms and destroy their cells.

The ions flocculate suspended matter and eliminate algae and bacteria. This increases the water's transparency and reduces consumption of chemical products resulting in clear reductions in maintenance costs.

The **Hidronizer** from **Sugar Valley** continually produces algicide, bactericide and natural flocculating agents that result in improved quality control parameters for the water.

The Hidroniser is equipped with a detachable touch screen, connected via a cable or through optional Wi-Fi, so you may control the water's parameters without leaving your

Commercial HIDRONIZER  
with Salt Cell

home. The Hidronizer is ideal for residential pools. Higher capacity systems are available for commercial pools.

In large commercial pools it's recommended to combine the ionization system with a salt chlorination system for optimum sanitization.

Complete your pool sanitization system by giving added value to your pool with the Hidronizer.

## Deck Jet 500™

Elevating the visual and acoustic appeal of your pool

The simple **Deck Jet 500** creates an arching stream from the deck to the pool.

WFJ100  
Deck Jet

The **Deck Jet 500** features an attractive bronze-coated cover and the industry's only height adjustment mechanism for

perfect deck alignment even after settling occurs.

The flow and direction are simple to adjust without tools.

The Deck Jet 500 can be used in

- » Sun-Shelves
- » Spas
- » Spill Overs
- » Fountains
- » Splash Pads

**TEST POOL WATER DAILY AND MAINTAIN PROPER CHEMICAL BALANCE**

**Free Chlorine Level:**  
**1 ppm – 3 ppm**  
**pH Level:**  
**7.2 – 7.4**

## Suction Entrapment

### Mechanical Entrapment:

There is potential for jewelry, swimsuit, hair decorations, fingers, toes or knuckles to be caught in an opening of a suction outlet or suction outlet cover resulting in mechanical entrapment.

### Hair Entrapment:

Hair can become entangled in suction outlets

### Limb Entrapment:

A limb inserted into an opening of a suction outlet or suction outlet cover that is damaged, broken, cracked, missing or not securely attached can result in a mechanical bind or swelling of the limb.

### Body Suction Entrapment:

A differential pressure applied to a large portion of the body or limbs can result in entrapment

### Evisceration/ Disembowelment:

A negative pressure applied directly to the intestines through an unprotected suction outlet sump or suction outlet cover which is damaged, broken, cracked, missing, or unsecured can result in evisceration/disembowelment.

## Hayward WG Series VGB Compliant Outlets and Covers

The risk of suction entrapment can be reduced by using **VGB Compliant suction outlets** (main drains)

All **Hayward WG Series** suction outlet fitting assemblies and replacement covers have been tested to ANSI/APSP/ICC-16 2017, are VGB compliant and

9", 12" and 18" Square Drain Covers and Frames

meet CPSP requirements Hayward square drain covers are available in a wide range of sizes and flow designs. Hayward's High Flow covers have some of the industry's highest approved flow rates.

WG1030AVGBLPAK2  
Dual Suction Flow Drain Cover and Frame, Black

For concrete, vinyl and fiberglass pools, Hayward round suction outlets are available in a wide range

of plumbing configurations, plaster collar options and colors.
